Dear President and members of the YWCA of Korea,

Greetings from YWCA of France!

On behalf of the YWCA of France, we thank you for the solidarity and comfort message for us and for the people of France after the recent and underhuman attacks. Accept our deep appreciation.

We think of all whose lives have been touched by the tragedy of deliberate acts. The French nation and we at the YWCA have been moved by all the solidarity loving messages sent from all over the world. We deeply believe such messages will comfort and strengthen in times of suffering, pain and loss. We pray for the suffering ones.

We also pray for our leaders to have the wisdom and intelligence to seek and find the right solutions to eradicate violence and have everyone live in dignity, freedom and long lasting peace based on justice.

Yours sincerely,

Myriam Randrianarijaona  
President of YWCA of France
